

Men see

Men see that this is true!

- There are men who see that this is all true!
- There are men risking their life to raise awareness!
- There are men risking their life to raise awareness that time has come to change the way of thinking!
- There are men who are fed up with doing what others want!
- They are fed up with doing what others want who do not see that time has come to change something!

Men comprehend!

- Those men comprehend that they must do something!
- They fully comprehend and they do something!
- They do something, means: “They do something to help the earth!”
- They plant and treat differently! They are biological farmers!
- They are biological farmers who have comprehended that time is now to do something!
- They can do something!
- They can help save the earth!

They can help the earth!

- They can help the earth recover!
- They can help the earth recover and can do whatever is necessary!
- They cannot save the earth. However, they can help the earth do what it wants to do!
- To live!
- The earth wants to live. The earth wants to provide plants, animals and men!

The earth wants to support life!

- The earth wants to support life because „Supporting life“ is her task.
- That is what it can do! That is what it wants to do! That is what it can and what it wants but men hinder it!
- However, there are men who have comprehended, that they cannot do this!
- They cannot treat the earth like a slave!
- They are sensitive enough to see, that the earth wants to be appreciated for what it is doing!

Men appreciate what the earth gives them!

- It gives them life!
- It gives them life and helps them live!
- It helps them live well. It helps them to live happily. It helps them by giving plants which do anything for them!
- It does everything to be appreciated!
- It gives them flowers, which are so beautiful that they love seeing them!
- It gives them plants which give them food which is delicious!
- It gives them fruit which make them happy!

It is their friend!

- The earth is man's friend!
- Man sees that! Those who practice biological agriculture see that!
- It is necessary to recognize this!
- The earth is your friend! Treat it as a friend!
- You can do this! You can do this if you recognize that the earth is your friend and you appreciate it for this!

The earth wants to be appreciated!

- The earth wants to be appreciated, means: “The earth can be appreciated!”
- All biological farmers do so. They love it. They appreciate it. They do not do to it what other farmers do!
- They do not douse the earth in chemicals!
- They care that the earth is able to do what it wants to do!
- It wants to give men food!

Food is not food!

- Food is not food, means: “Men do not recognize that food is not food. “
- They eat things!
- They do not eat food but things! Things which are artificial!
- They eat things which are artificial and which make them sick!
- They get sick and do not see why they are sick!
- They are sick because they eat things!

The things poison them!

- The things poison men!
- They poison men, animals and the earth!
- They poison men, animals and the earth because they are not natural!
- They are not natural because they are artificial!
- They are artificial and they poison men because they do not have any substance!
- They do not have any natural substance. Everything is artificial! Everything is made to nourish men. However, it does not nourish but sates them instead!
- It sates but that is not what men need!

Men need food!

- Men need food which they can process. They need to process it because their organs want to process it!
- They do not do that. The things men eat are not food but artificial food!
- Artificial food is not provided for. It cannot be processed by the organs! It cannot be processed the right way!
- Therefore, men have so many problems with their organs!
- They are overfed. Overfed with things which cannot be processed by their organs!

Things produce garbage!

- Things produce garbage which men do not see!
- They do not realize the quality of garbage!
- Garbage is poisonous. Men who know about garbage know this. But they do not want to realize!
- Men stink. They stink because there is so much garbage in their body!
- There is so much garbage in their body which poisons their body!
- They are poisoning their body and do not know that they are doing so!

Garbage eliminates men!

- Garbage eliminates men!
- Why?
- Because men do not realize that the poison which is in their body is not disposed!
- It is not disposed, means: “It is in their body.”
- They have it in their body, means: “They carry it along!”
- They carry it along and do not realize that the poison inside is working!
- It is working and working and creates what men call polyps, cancer, lumps!

Lumps are the result of things

- Things create poison. They create poison in the body!
- Man does not realize and keeps eating!
- He keeps eating and believes that he is sated. However, he is not sated but filled.
- He is filled means: “He is filled with things!”
- He is filled with things that poison him!
- That means: “He does not realize that he does not strengthen himself but weaken himself!
- He weakens himself and does not realize that he is becoming weaker and weaker because he does not care!
- He thinks that he does not have to care!

Man is wrong!

- He is sick! He is sick and does not realize why he is. He does not realize that he is sick because he does not eat the right food!
- Food is Life!
- Food is life and men do not realize that they stop living if they keep on eating things!
- This is what men should see but they do not!
- Why?
- Because they are thinking the way they are!
